2020 Critical Issues in Mathematics Education Workshop Postponed

Due to the COVID-19 virus outbreak, MSRI has determined that it would be best to no longer host the Critical Issues in Mathematics Education 2020: Today’s Mathematics, Social Justice, and Implications for Schools workshop here at the Institute. While we realize that this may come as a disappointment, we have been strongly advised to avoid gatherings of large groups.

We are currently working on the logistics to make some of the talks available online, beginning next week and continuing throughout the Spring. We anticipate that there will be at least three talks offered next week and will send you details as soon as they are solidified.

At this time, please cancel your travel plans. Attached is an official notice of this change which can be shared with your institution, funding agency, and others to help you get reimbursement for the expenses you may have incurred.
